PROFILE

Creative and self-driven web developer with a strong interest in full stack development. Experienced in academic and freelance projects, always eager to learn, build, and collaborate.

LANGUAGE

English

Native-level proficiency in reading, writing, and speaking. Used as the primary medium for academic and development projects.

Hindi

Fluent in communication and comprehension; used in both academic and casual environments.

Bengali

Native/mother tongue; proficient in both written and spoken communication.

French

Studied as a third language in school with basic reading and writing skills.

WORK EXPERIENCE

Full Stack Developer, MomoStreet

June 2025 - July 2025

- Designed and developed a full-stack restaurant menu and order management dashboard for a cloud kitchen startup.
- Integrated Supabase for real-time menu storage, authentication, and persistent admin control.
- Built responsive UI for daily menu updates, multi-meal categories (breakfast, lunch, snacks, dinner), and subscription-based mess card options.
- Tech Stack: React.js, Tailwind CSS, Supabase, Node.js

Founder Engineer, Alethemyra (Startup)

May 2025 - June 2025

- Built the Minimum Viable Product (MVP) for a FinTech startup, incorporating user onboarding, document upload, KYC verification, and land/company data collection modules.
- Collaborated closely with the founders to iterate on user flows, ensuring alignment with business goals.
- Tech Stack: React.js, Render Postgress, Node.js

Software Developer, Amity University Bangalore - Faculty Feedback System

April 2025 - May 2025

- Created a secure and anonymous web-based faculty feedback platform to streamline semester-end reviews.
- Developed custom dashboards for students, faculty, and admins, enabling role-based access and performance analytics.
- Tech Stack: Node.js, React.js, MongoDB, MySQL

Web Developer, Amity University Bangalore - AMIGLORIA Fest Website

March 2025 - April 2025

- Created a secure and anonymous web-based faculty feedback platform to streamline semester-end reviews.
- Developed custom dashboards for students, faculty, and admins, enabling role-based access and performance analytics.
- Tech Stack: Node.js, React.js, MongoDB, MySQL

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Amity University; Bengaluru, India

Aug 2024 -

- I am currently pursuing a B.Tech in Computer Science with a strong focus on full stack web development, software engineering, and real-world application building. Actively involved in academic projects, tech events, and freelance work, applying classroom knowledge to solve practical problems and build production-ready solutions.

PCMC

Chethana PU College; Bengaluru, India

- Completed 11th and 12th at Chethana PU College with a strong focus on preparing for the JEE Mains and other competitive exams. Balanced a rigorous academic schedule with targeted exam preparation, developing problem-solving skills and time management techniques. Gained a deep understanding of core subjects while staying motivated in a highly competitive environment, aiming for excellence in both academics and exam performance.
- Throughout this period, I honed analytical thinking, perseverance, and effective study strategies. My experience at Chethana not only strengthened my academic foundation but also taught me how to handle pressure, stay disciplined, and adapt to the demands of high-stakes examinations.

Secondary Education

Air Force School Hebbal; Bengaluru, India

April 2016 - Mar 2022

- Attended Air Force School from 4th to 10th standard, where I actively participated in a wide range of academic and extracurricular activities. Demonstrated strong problem-solving skills through participation in various hackathons and Olympiads, consistently achieving high results. Excelled in sports and represented the school in multiple athletic events, showcasing leadership, teamwork, and discipline. My experiences have fostered a well-rounded skill set, blending technical acumen with a passion for physical fitness and collaboration.
- Through these experiences, I learned to manage teams, strategize for success, and balance competing priorities, honing my ability to inspire and collaborate effectively with others. This foundation has shaped my leadership style, emphasizing teamwork, resilience, and problem-solving.

SKILLS

- Languages: JavaScript, Python, C/C++, HTML, CSS, SQL
- Frontend: React.js, Tailwind CSS, Bootstrap
- Backend: Node.js, Express.js, PHP
- Database & Auth: MySQL, Firebase, Supabase
- Tools & Platforms: Git, GitHub, Postman, Figma, VS Code, Netlify, Vercel
- Other Skills: REST APIs, MVC Architecture, CRUD, Responsive Design
- Soft Skills: Problem Solving, Collaboration, Time Management, Quick Learner
